

Pre-Lab:

Task 1:

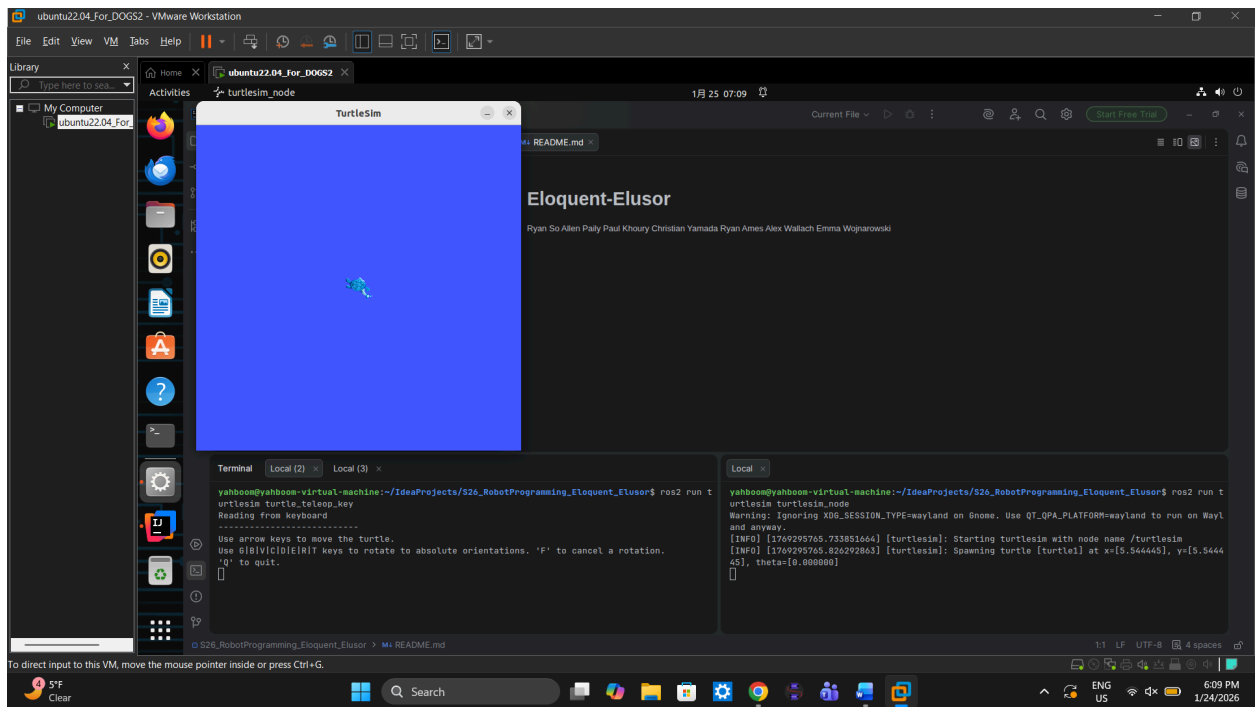

Task1 extended:

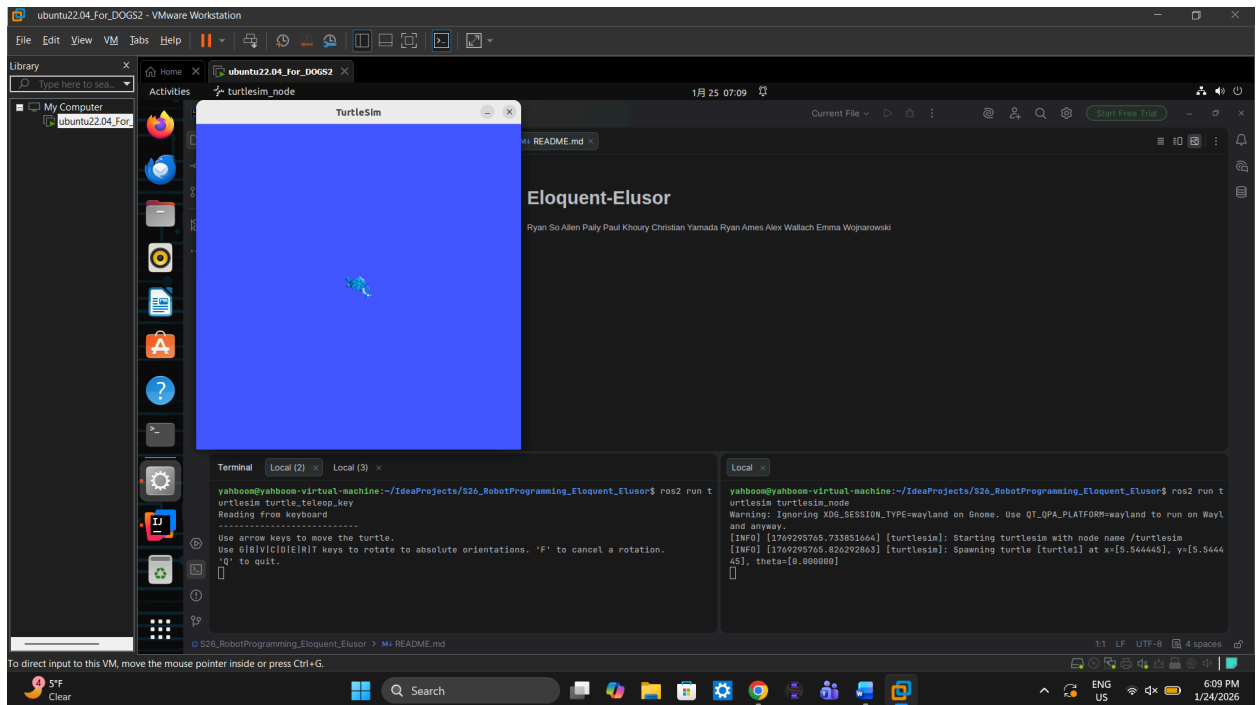

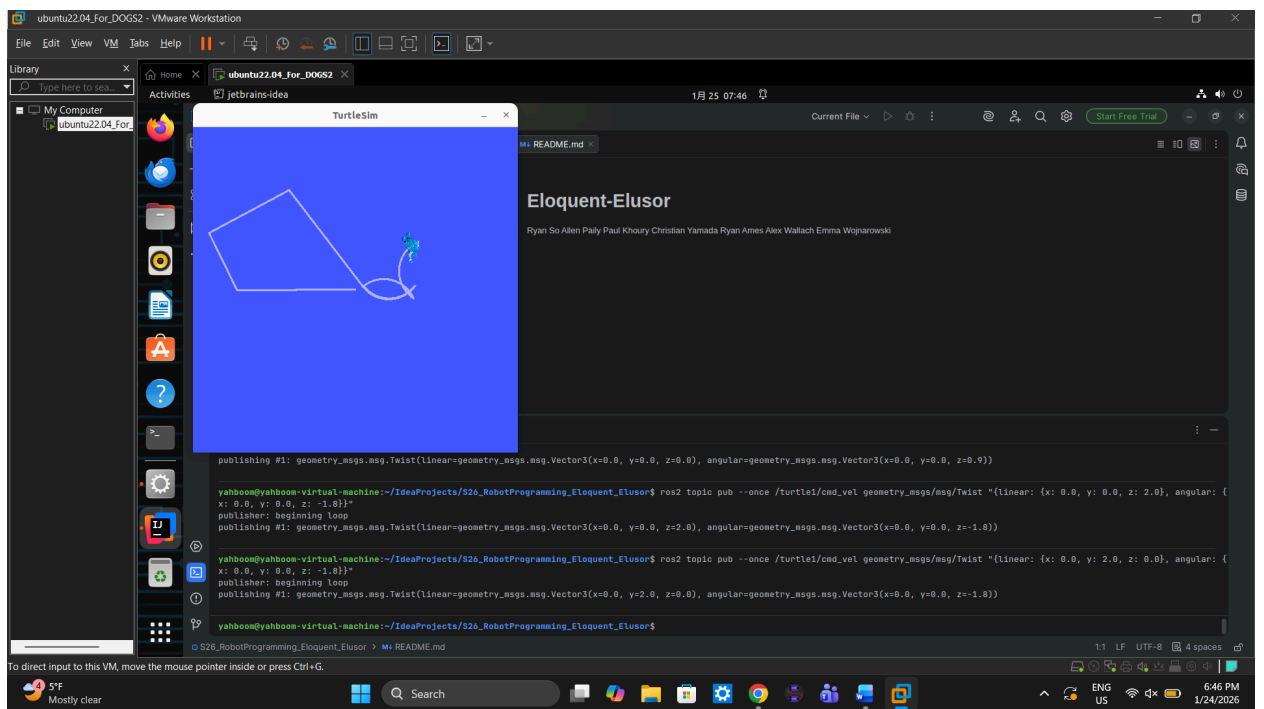

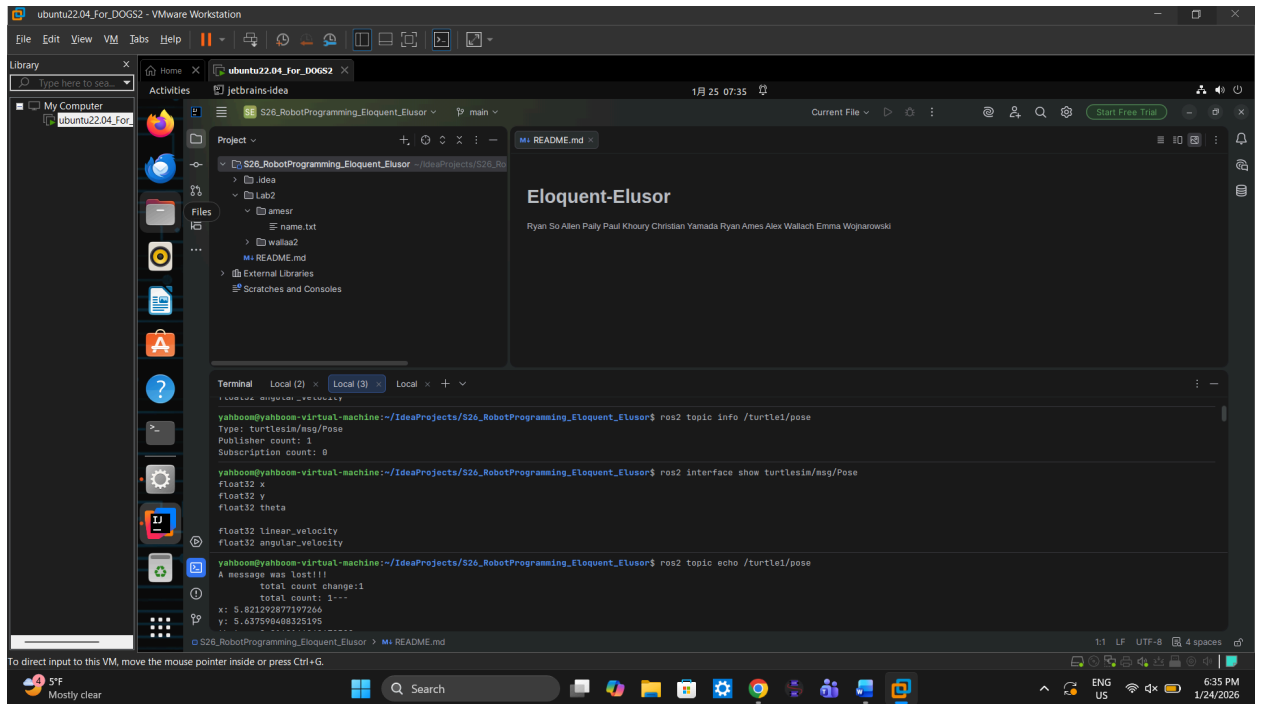

Task 2:

1. Starting Nodes:

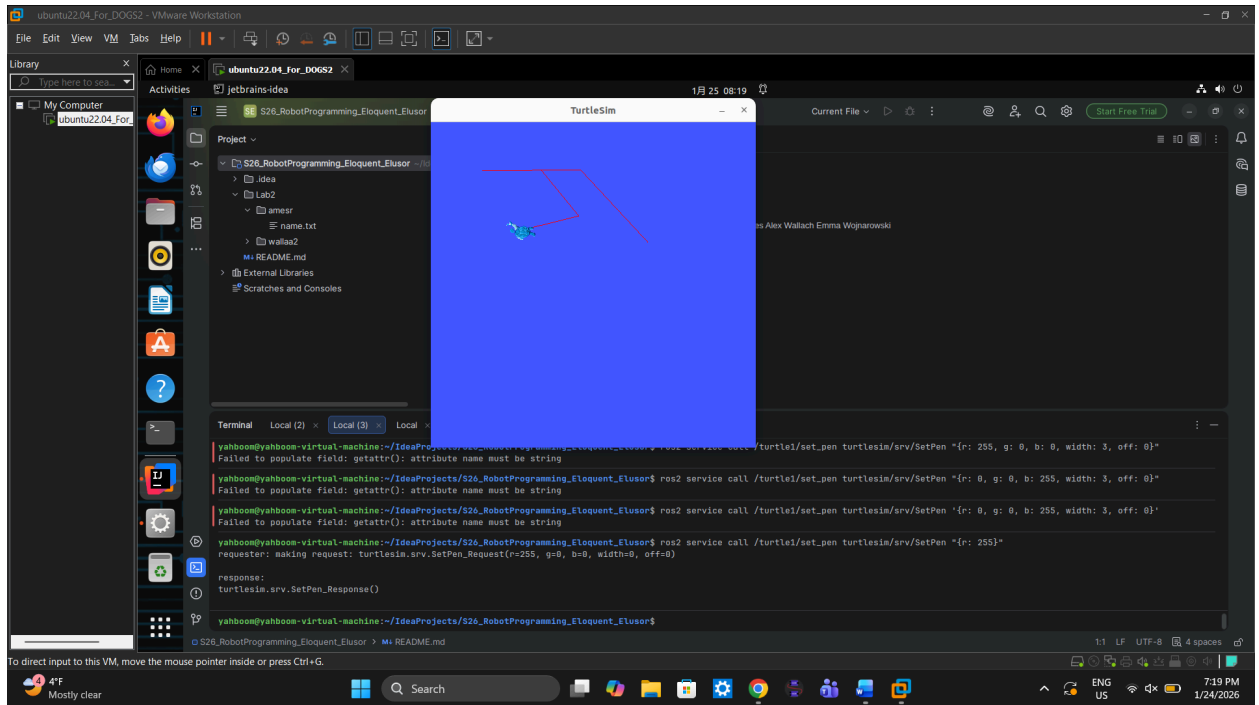

2. Topics:

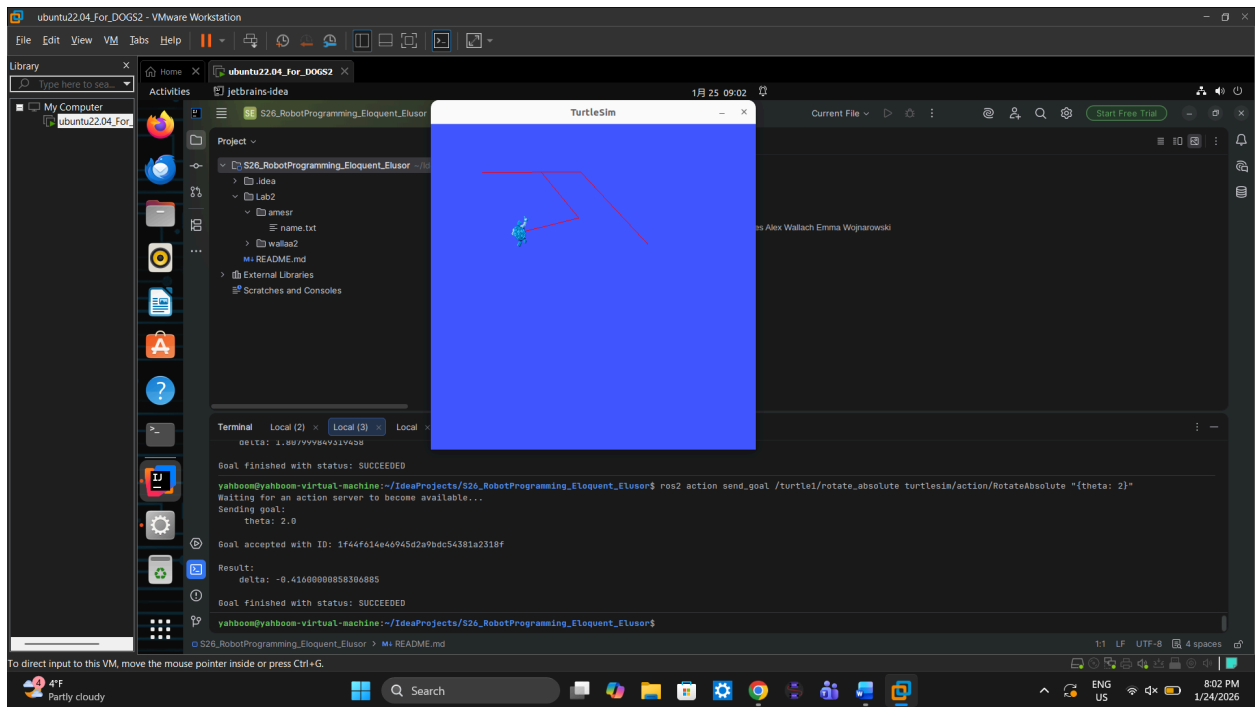

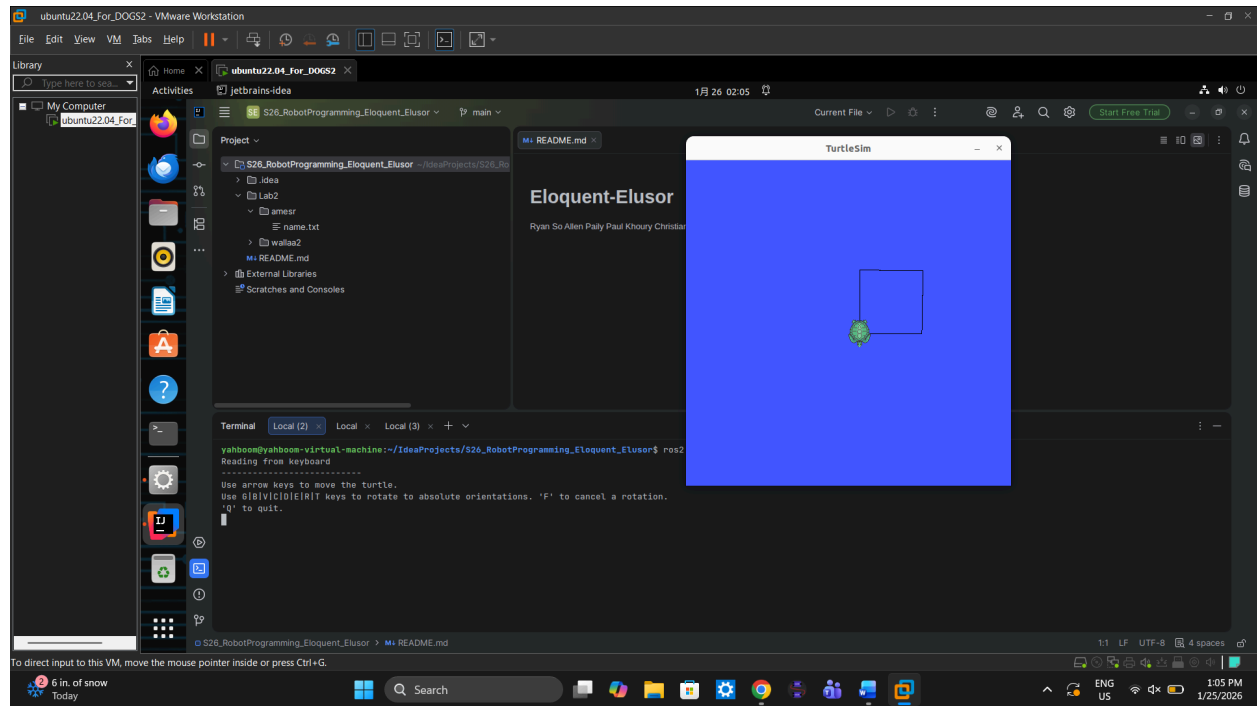

3. Services:

4. Action:

Task 3:

To complete task 3, I first made a single input with that up arrow key, then ran the command `ros2 action send_goal /turtle1/rotate_absolute turtlesim/action/RotateAbsolute "{theta: 1.57}"`. Next, I made a single input with that up arrow key, then ran the command `ros2 action send_goal /turtle1/rotate_absolute turtlesim/action/RotateAbsolute "{theta: 3.14}"`. Next, I made a single input with that up arrow key, then ran the command `ros2 action send_goal /turtle1/rotate_absolute turtlesim/action/RotateAbsolute "{theta: 4.17}"`. Lastly, I made one last forward input.
