Lab 6 Deliverable

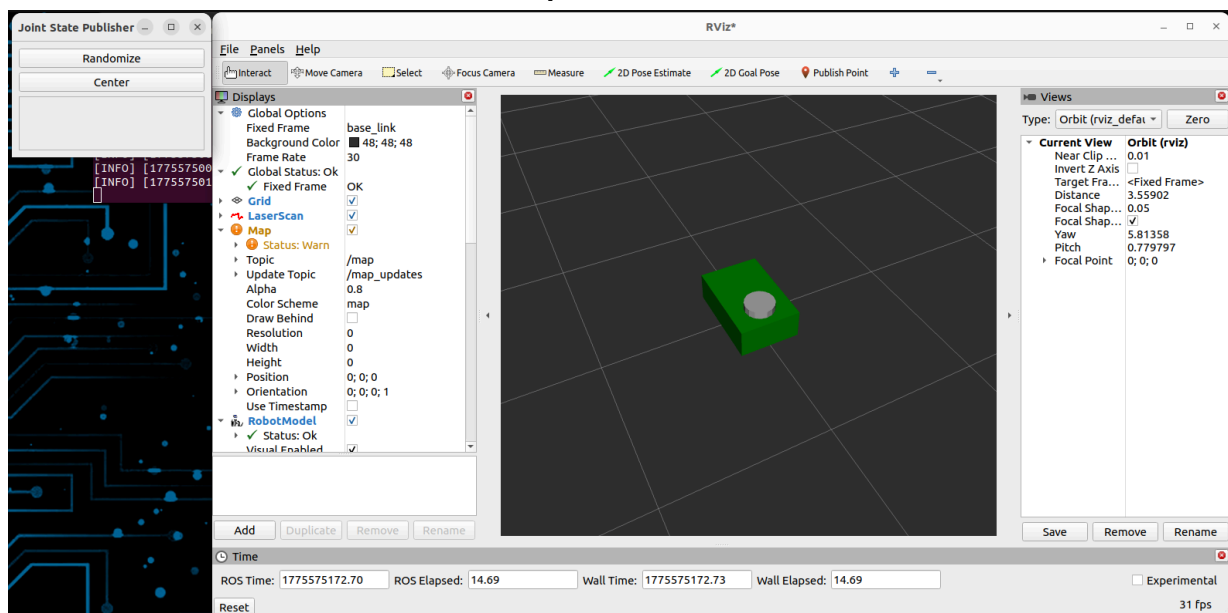

Visual for Task 1 Step 8

Here is my screenshot showing the bottom of the box on top of the ground plane.

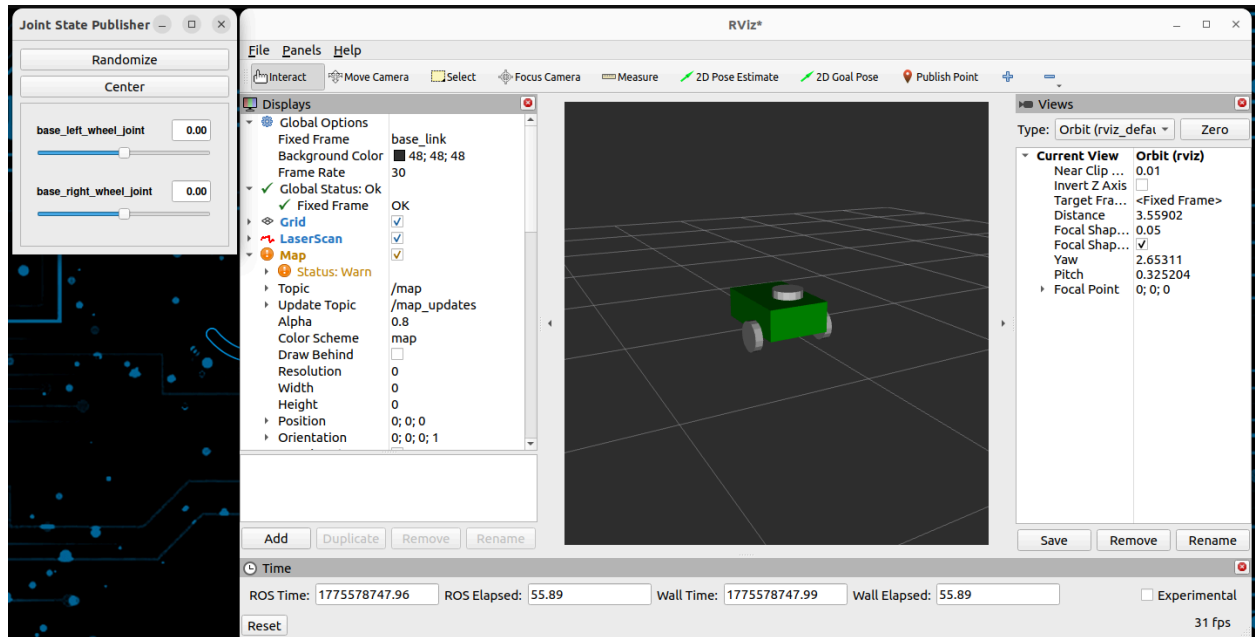

Visual for Task 1 Step 18

Here is a screenshot with the lidar link positioned like in the directions.

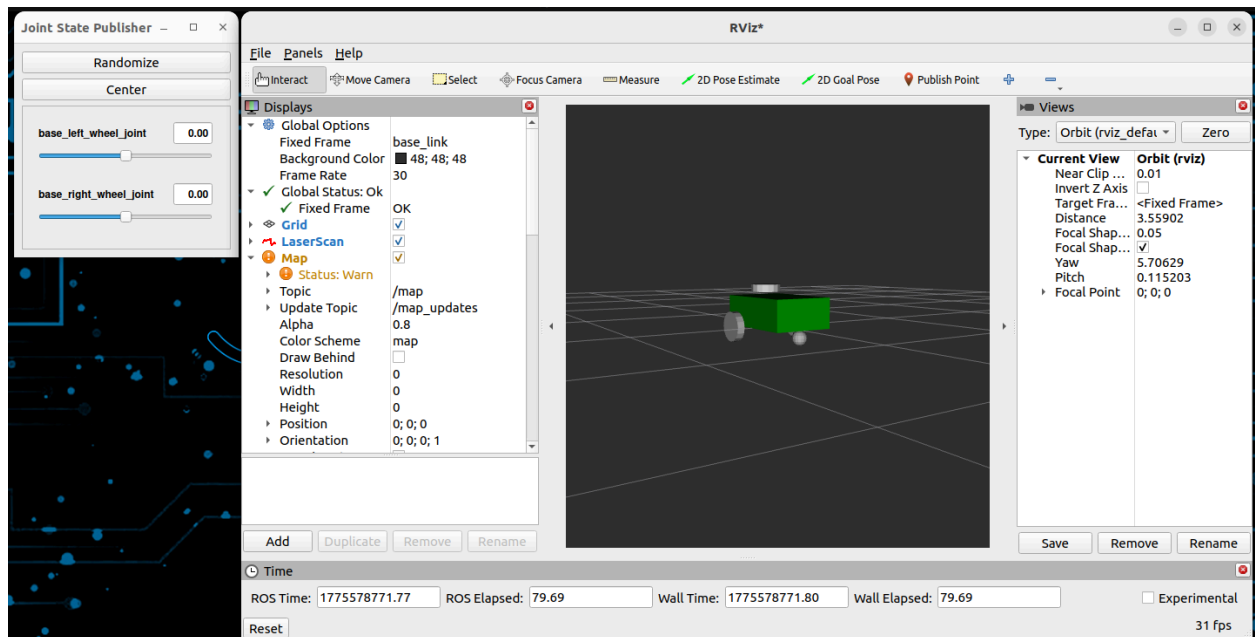

Visual for Task 1 Step 36

Here is a screenshot showing the fully built robot from the front.

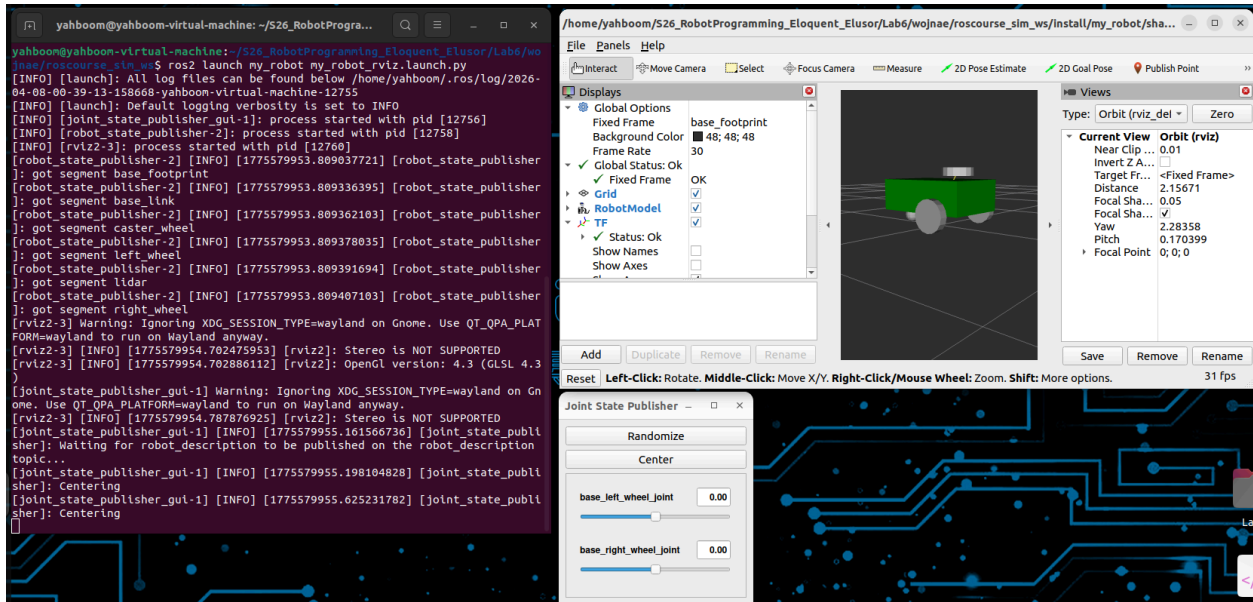

Here is a screenshot showing the fully built robot from the back (with the caster wheel).

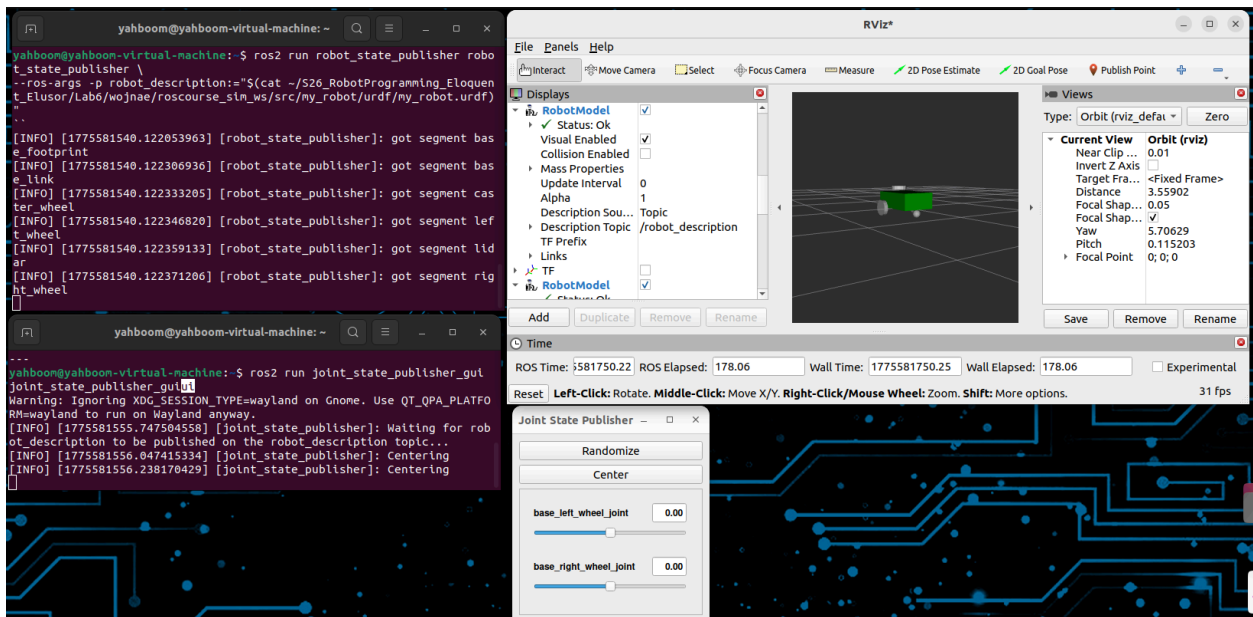

Visual for Task 2 Step 6 With Launch Terminal Command Visible

Here is a screenshot showing the new launch file running and opening rviz2.

Visual for Task 3 Step 3 (Not Functional Version)

Here is a screenshot showing the robot model visualized in RViz using the alternative method by publishing a URDF with robot state publisher and displaying it using the RobotModel display.

Since the webcam and urdf_tutorial package were not available on the VM, the alternative approach was used by publishing an existing URDF and visualizing it in RViz.
